There is an editor on the PS4 version of the game that allows you to choose your language, but there won't be an Xbox One edition of the editor. Despite this, there are Russian and Chinese versions of the game available on Steam – bad news for those of us who want a translation option on multiplayer mode. There was a patch released which added a new perk called "Overkill". The player will perform a kill streak by killing enemies with 2 explosive hits.

The game was met with positive to mixed reviews. The GameRankings score for PlayStation 4 is 87.99% based on 20 reviews. Metacritic gave the PlayStation 4 version 87 out of 100, the Xbox One version 83 out of 100, and the PC version 76 out of 100. Sales figures were not released for the game's launch, but Activision announced that they were satisfied with sales. On November 25, 2014, Activision announced that Advanced Warfare sold double the amount of Black Ops II in its launch weekend, making it one of the most successful Call Of Duty games to date. On November 10, 2014, Activision and Sledgehammer Games released a new multiplayer map titled "Solar". This is the first free bonus map released after the game's launch. The map is available to download on all platforms (launch platforms included). On December 23, 2014, Activision and Sledgehammer Games announced the first DLC (downloadable content) for Advanced Warfare called Havoc. It was released on January 27, 2015 and is available for all platforms (launch platforms included). The Havoc DLC adds 5 new multiplayer maps (Abandoned, Chop Shop, Digital, Dynasty and Noir) and a new Exo Zombies map called Carrier. It also includes new weapons (MAHEM, the EM1 Quantum CQB Mod 0, the EPM3 with VAPR-XKG combat rifle), 1 new scorestreak (Karma Bomb killstreak), 1 upgraded weapon (XM-53 Wyvern), 1 modified weapon (MK14 with the Select Fire attachment) and 2 brand new game modes: Cranked & Blitz. The DLC costs \$15/£11/€15/AUS23 for non-season pass holders or can be picked up in map packs.
